

CBS2013

6th Left Main & Coronary Bifurcation Summit

November 28th - December 1st

Thursday - Sunday

NANJING INTERNATIONAL CONFERENCE HOTEL

Dear Professor,

The **6th Left Main & Coronary Bifurcation Summit (CBS 2013)** will be held during **November 28th to December 1st in Nanjing, China.** CBS aims to improve patients' care by freshly fundamental researches, clinical trials, consortium or guidelines published yearly, emerged ideas and dedicated case-based discussion.

With your outstanding contribution to the interventional cardiology, it is my great honor to invite you to participate **CBS 2013**. Currently, we are building programme for CBS 2013. Your interests are very important for all interventionalists. Younger generation has been testing your techniques, ideas and recommendation in every day practice. Surely, most patients would benefit from all of your experiences.

We are interested in receiving **CASES** and **LECTURES** to be presented in the following sessions:

- New Conception: Complex and Simple Bifurcation Lesion
- Mechanism and method of bifurcation stenting techniques
- Significance of complex intracoronary image technique

Please send me a brief description including a few images. The cases and lectures will then be selected by an ad hoc committee. **Thank you for your valuable participation.**

I am looking forward to hearing your positive reactions and seeing you in Nanjing!

Best regards

Professor Shao-Liang Chen

Executive Chairman

CBS Organizing Committee
